Cattle worked well through yards and crush, have had quite a bit of handling through yards. Some cattle became slightly agitated when in the crush (not unusual), when let out they settled back to the mob quickly. Overall a good mob of heifers to handle.

Assessor Comments	Buyers here is a opportunity to purchase very good quality Angus weaned heifers. These heifers have had a dry start with rain only falling in the last month, these heifers since weaning are on the move and expect them to keep powering ahead. They are by Texas Angus bulls and out of a very good herd of Angus cows. These heifers are ideal backgrounders to grow out to heavier feeder or export weights. They stand on good bone and confirmation and will fit any Angus Feeder market. These heifers come with a reputation for performance on crop and grain. This is a rare opportunity to purchase these heifers at this weight as they are normally sold as heavy weaned heifers or retained as breeders.
