Assessor Comments	A quality line of weaned, framey steers with plenty of potential and all the right genetics to turn green feed into kilos. Ready to hit the paddock and take advantage of the season ahead, these steers offer an exciting opportunity for buyers looking to add weight and value. These steers have a proven ability to perform on both grass and grain, offering plenty of versatility for backgrounders and feedlot operators alike. Sired by Oakwood and Lindsey View Limousin bulls, selected from the top percentiles for growth and performance, these calves carry the genetics to go ahead and perform. Weaned in July, they present in good store condition and are an ideal opportunity to secure a quality line of cattle with plenty of weight gain ahead of them. A genuine opportunity for any backgrounding or feedlot operation.
