Assessor Comments

BUYERS here is an excellent opportunity to purchase unweaned EU Angus calves. These calves are marked and up to date with their health treatments. These calves will be weaned onto the truck at delivery so please make your adjustments when purchasing. JT Angus sire bulls that are used are based on Millah Murrah bloodlines. These bulls were selected on their carcass, retail beef yield, temperament and growth traits. As you can see in the videos these calves are quiet and with the correct weaning program and a forward plain of nutrition, they will excel to target any program in the future to optimise your greatest return on this investment. These calves are vendor bred, EU and grass assured. Calves were marked and processed 17th August 2026 and returned to the cow. Please note there are two calves with a partial blue eye and one calf that is from a vendor bred shorthorn EU cow. Please check media thoroughly for further clarification.
