Assessor Comments	An exceptional line of very quiet, young Angus Heifers. This is the top of the drop heifers from the Autumn calving. Heifers are from a tremendous herd of Karoo and Bannaby Blood Cows. The Lowe family have sourced the best of the Karoo Bulls for a number years and in the past 10 years have infused the right Bannaby Angus genetics along side the Karoo Sires. These heifers were properly weaned and handle extremely well in the yards and paddock. Since weaning, heifers have done very well and will present in predominately Forward store condition. These females would make an ideal line to add to any herd, or to become the building blocks of a new herd.
