Any Access To Bulls or Stags?	Yes, last access to bulls/stags: 28/09/2026
Joining Access Details	Heifers did not show any signs of being in calf but as a precaution due to running with a stag 6 weeks ago, they were PG'd at assessment. For further clarification please call Georgia.
Temperament	Yards: Quiet: 17 head Crush: Quiet: 17 head Paddock: Quiet: 17 head Vendors put a lot emphasis on using low stress stock handling practices when handling their cattle both out in the paddock or in the yards which showed during the assessment. Heifers stood quietly, moved when slight pressure was applied and walked into the crush and up onto the scales with no issues. They were a pleasure to handle
Handled With	Bikes , On foot , Vehicles
Assessor Comments	A line of heifers that offer plenty of style, genetics and potential for breeders, backgrounders, feedlot buyers and export operators alike. Bred from quality Jade Park Angus bloodlines, these females have been sired by carefully selected bulls chosen with a focus on structural integrity, docility and superior growth genetics. Heifers present with good frame and weight for age, along with great temperament due to the use of low-stress stock handling practices. Offered as a surplus to requirements, this is an opportunity to secure a line of quality females with over 20 years of carefully curated Jade Park genetics to add to a breeding program or carry out to feedlot entry or export weights. Please note that heifers were running with a stag up until 6 weeks ago when they were separated. None were showing signs of being in calf at assessment, but for buyer confidence and peace of mind for both parties, the heifers were given a shot of PG at assessment.
