Assessor Comments	195 head being offered as 2 x 97 head and delivered as a run out the gate. Angus and Angus cross heifers that are currently on agistment and with the agreement nearing an end these cattle are to be sold. They were sourced from northern NSW and southern QLD and have acclimatised and have done well since arriving. A tail on weight and any off bred types have been removed to create a line of heifers that are suitable to fatten for a domestic kill if required. Please refer video to make your own assessment of breed content. Weighed 223-388kg full to average 280kg with a curfew applied. They are starting to lay fat cover as the feed hardens and are presenting as forward store in condition. A decent run of heifers with plenty left in the trade to value add and take onto the next level. Should you require any further information please call. Please note vendor is offering steers in today's sale also.
