These lambs are vendor bred from a large flock that is highly measured using indexing for continual flock improvement. The wether lambs were shorn in mid June, backlined with Centurion and drenched with Moximax LV injectable. The lambs are on the improve from recent rains and have a lot of compensatory gain for the purchaser when going onto good feed. Don't miss this opportunity to purchase a large line of well-bred young wether lambs. Please note there were a few lambs sighted with old dermatitis and the odd lamb with an old shearing cut still healing. Also please note the vendor is willing to load these lambs as a comfortable 6 decks for the purchaser.
