Vendor Comments	ANNUAL SELL OFF OF 1ST X WRS. EWES RETAINED TO THE PROPERTY.			
Assessor Comments	ON OFFER ARE 153 1ST X WEANED WETHER LAMBS. These lambs have an average liveweight of 38kg at assessment. With all the hard work complete—fully weaned and all animal health treatments up to date—these lambs are ideal to "set and forget" and fatten through the spring months. They are well suited to the trade market or can be taken through to heavy export weights. The vendors have spared no expense in preparing these lambs for sale, with all animal husbandry protocols in place, including drenching and a second dose of vaccinations. These lambs have been weaned onto canola crops with full access to barley in self-feeders, giving feedlotters an opportunity to secure wether lambs already trained to self-feeders. The sires of these lambs have been carefully selected from the New Armatree Border Leicester Stud for high weaning weights, carcass quality, and dressing percentages. This is your opportunity to purchase top-quality lambs ready to finish. These wethers carry my strongest recommendations.
