Assessor Comments	A Great line of Primeline ewes, These ewes have really grown out in favourable winter conditions being rotated through crops and good pasture. They show great stretch and are quite compact to take on as future breeders. They were joined as ewe lambs at 6months of age in drying conditions where they did not join. We have recently scanned empty for buyer confidence. These ewes deserve another chance. Buy with confidence as they are very good sheep that have preformed for this vendor for Numerous years.
