Assessor Comments	A quality line of Composite Ewe lambs, 508hd offered as a genuine "run out of the gate" in 2 lots of 254. Pure Cloven Hills blood. They are sired by the top 15% of Cloven Hills Rams which are selected for muscle, early growth, post weaning weight, eye muscle, and positive fat. These ewe lambs have been selectively retained from multiple births, with the vendor focusing on improving overall lambing percentages and long-term flock fertility, they would usually be retained as future breeders, only selling due to a change in the program. These ewe lambs present an excellent opportunity to secure productive replacement breeders with a strong genetic foundation.
