Assessor Comments	A quality line of 320 x White Dorper & Dorper mixed sex lambs, predominately 'Tullinga' blood. October/November 2025 drop and averaging 39.2kg live weight at assessment after an overnight curfew. 'Yarambie' have been breeding Dorpers for years, classing their flock on fertility and growth. This is a good opportunity to secure well-bred lambs that won't take long to turn into trade or export lambs. The tail has been taken out of the assessment so you're buying top of the drop. Buyers note 10% of the mob noticed to have scabby mouth not considered detrimental to their health.
