Assessor Comments	Complete drop of lambs, making way for more breeding stock. Small tail removed below 28kg at assessment. Lambs have been bred from traded ewes and have had a Flexolt on the 3/8 as a precaution along with their mothers. Typically grown out to export lambs, they are being moved to allow more options for breeding stock. Fresh and forward lambs that haven't yet been weaned, they have had an excellent start on rich, hard feed and are on the do.
