Assessor Comments	Rare opportunity to secure a good line of Composite X Dorset/White Suffolk Suckers, only 2-3 months of age that are all individually weighed 36-46kg full at assessment. These lambs are the complete top's of the drop and present in very fresh to fresh forward store condition straight off mum. These lambs are currently being imprinted on Barley and Oat creep feeders and will be weaned at delivery. Vendor selects Rams each year on carcass shape and IMF. These lambs are normally retained in fattening program, though making room for next drop of lambs coming through. A very good opportunity to take out to trade or export kill. Please phone for more information. Vendor has one other lot of next weight category down of 32-36kg full at assessment.
