Assessor Comments	Complete drop of ewe lambs on offer from the Kara flock with a 15% tail removed. These lambs are Greenland blood with the vendor purchasing Greenland rams at auction each year with a high focus on micron and wool quality. All lambs that were opened up in the wool showed exceptional whiteness, excellent staple length and would be very profitable wool growers if given the opportunity with vendors regularly topping the wool markets each year. These maidens will grow into excellent breeders if shown some sunlight and given the opportunity. Please note: Agent can arrange freight to Riverina with weekly market trucks to Wagga.
