Vendor Comments	Annual draft of wether lambs sold at this time every year.
Assessor Comments	These young lambs form part of Karwin Nominees 26' top draft of wether lambs, and present in great order. There is another lot of 170 head in this sale. Considering the tight start these lambs had, they are now in great health and are really going forward, and will continue to do so. They have been trailed barely in the paddock. These lambs have a great name and are proven performer's both on grass and in a feedlot situations. Karwin buy rams at the top end of Kiandra's catalogue, chasing rams well above breed average for both meat and wool alike. These lambs show great length of body, shape and depth considering their young age, and are really beginning to have a good length of wool. All lambs in this lot were run through an autoweigher at assessment, with all lambs in this lot being 32-37kg. 4 head in this lot had scur/horn. Please see Karwin's flock profile in photos, showing their strong genetic traits for growth, carcase potential and wool traits that back up this program and the lambs you are bidding on. Any dirty lambs will be crutched prior to delivery.
