Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	On offer are 300 White Suffolk X new season sucker lambs These suckers' lambs have an average liveweight of 37.8kg at assessment. These lambs are March-April 2026 drop and are ideally suited to take advantage of the upcoming spring feed and finish into heavier trade or export weights. All animal health requirements are up to date. The lambs were individually weighed at assessment, ranging from 30kg to 54kg liveweight, following a full overnight curfew. Please note that a 15% tail has been removed from the mob, meaning this offering represents the tops of the drop. These lambs display excellent growth for age and carry my strongest recommendations.
