Assessor Comments	A very nice line of fresh forward sucker lambs, all the early works done with these lambs being weaned now since 20th July. They have had both vaccinations and a drench and have been powering ahead on the good feed since weaning. Added bonus of being M&TS if successful purchaser wants to take on the ewe portion as breeders. These lambs are bred from high index white suffolk rams and big frame merino ewes. They won't take long to push out to heavy export lambs.
