Assessor Comments	Offering 630 quality Australian White Cross mixed sex lambs. They averaged 34.8 kg live at assessment after a large curfew off feed but on water. The lambs are out of Australian White ewes and sired by a mixture of Australian White rams from Sans Souci and White Dorper rams from Bellevue. The lambs are in good condition and should move forward well on the right feed. These lambs are an entire drop with none retained so there is potential to keep the lead of the lambs as replacement breeders. Overall this a tidy line of mixed sex lambs that are well grown and ready to power ahead for the purchaser.
