JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.			
Vendor Comments	Turnoff of the lead 6 decks of the 2026 drop wether lambs.			
Notable Traits	Traits 8 Head Light Horn			
Assessor Comments	Offering 816 GQ Merino wether lambs. The lambs were 28kg live at assessment after an overnight in the yards on hay but not water. The lambs currently have around 45mm average wool length and are the lead draft with a 15% tail removed. These lambs are bred from a long term Well Gully bloodline flock that has been selecting top quality rams for many years. The lambs are a tidy line that are generally kept through to be shorn in Nov/Dec and taken through to kill lambs. Don't miss this opportunity to purchase a well-bred 6 deck line of wether lambs that will perform for the purchaser as either a lamb trade or continue to grow out and run as profitable wool growers. Please note there are some wethers showing light horn trimmed, but the majority are polls.			
Assessor	Andrew Hacker (Level 1 Accredited) Phone: 0409 108 976
