JD Approved Vaccinates	Sheep are not JD Approved Vaccinates.			

Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	Here presents a neat line of mixed-sex 1st-cross suckers on the do and ready to take full advantage of the widespread quality season, buoyant lamb market and positive outlook ahead. Bred from Moorundie blood ewes and sired by locally sourced White and Black Suffolk rams from reputable studs, these lambs have the breeding and frame to grow out to heavy export weights if desired. All the hard work has been done, with lambs receiving just about every health treatment required. Hitting the deck onto green feed that has continued to improve in quality and quantity, they are very much on the do and should continue to thrive under favourable conditions. For buyer confidence, all lambs have been 100% weighed, with a 6% curfew applied. Full liveweights range from 34–49.5kg, averaging 37.78kg. A total of 1,000 lambs are offered in two mobs of 500 — a genuine run-out-the-gate line of well-bred, well-grown lambs with plenty of upside.
Assessor	**Jackson Adams (Level 2 Accredited)**
