Assessor Comments	On offer is a lovely line of 1st cross future breeder ewe lambs, account the breeder. Over 40 years breeding 1st cross sheep has included genetics from some large framed Merino flocks and over 2 decades of Dunneild Border Leicester stud selections. These ewes are well grown and on the do having no setbacks this year. They averaged 38 kg at assessment after 3 hrs in yards weighing from 28 to 50 kg. Genuine April/May drop they represent good growth for age. I observed 2 ewes with small scurr and 1 ewe with a black patch around her eye (see pics). Half these lambs have been weaned into a mob which still had the ewes (mothers) in the paddock to help the weaning process. They have had a good run since birth and still have good feed in front of them. Please note: Their brothers are on offer this sale also.
