Assessor Comments	Presenting a very smart line of 1st cross wether lambs account the breeder. The vendors have been breeding 1st cross lambs for over 40 years. These lambs are bred on Dunneild bloodlines, good weight for age and in forward store condition. They weighed 42 kg average after 3 hours in yards, ranging from 28 to 59 kgs. April/ May drop they display good growth for age. Approx 20 of these lambs exhibit some horn or scurrs (see pics) not affecting performance. 1 lamb was late marked and still has purse attached, but dried up. They are just over two weeks off the board and are ready to put onto feed with no more to be done. The vendor weaned half these lambs into another mob which still had some ewes running in the paddock to help settle the weaned lambs. Note: Ewe portion offered this sale as well.
