| Vendor Comments                       | The sisters to these wethers recently cut 16.7micron wool at an av of 65mm                                                                                                                                                                                                                                                                                                                     |            |             |             |
| Assessor Comments                     | On offer is a good line of Pooginook blood wether lambs from the Death family of Caragabal. These are the top 270 with a 10% tail removed. Jan/Feb drop these young lambs would given the right conditions grow into export lambs. A great rebate on their backs these wethers are ready to be shorn. Vendor has previously feed-lotted his wethers with pleasing results.                     |            |             |             |
