Assessor Comments	Bullamalita Past offers an excellent draft of Primeline ewe lambs, presenting a great opportunity to secure quality future breeders. These ewe lambs would normally be retained within the self replacing flock, however, due to high lambing percentages this season they are being offered for sale. These June/July drop lambs are up to date with all health treatments including Gudair vaccinations. The lambs are still on their mothers and will remain on their mothers until delivery. Bullamalita Past places a strong emphasis on genetics and performance, consistently investing in quality rams from Lambpro. Rams are selected with a focus on strong growth and performance, particularly PWWT, with \$6-\$10K invested annually in securing topend genetics. 400 ewe lambs in total to be sold in two lots of 200 as a run out the gate.
