Assessor Comments	These lambs offer a terrific opportunity to purchase a line of 1350 Corby white suffolk cross lambs out of top quality Egelabra blood and bred ewes in lines of 450. These lambs have all been weighed out with a bottom weight of 36kg and a top weight of 47kg, however over 90% weighed between 38 and 45 kg at assessment. These lambs have been properly weaned crutched and had their 2nd dose of 5 in 1. Since weaning they have been on an oat crop and were initially trail fed barley and now have full access to self feeders of barley, so fully inducted onto grain. These lambs have plenty of stretch and depth and are ready to go. These lambs are 1/3 of 1350 and are being offered in 3 mobs of 450 as a run out the gate Also being offered in today's sale are 670 of the next cut
