Assessor Comments	Small line of store XB lambs, ready to shear and take onto bigger weights. Have been properly weaned, and are still very much going ahead on the good green feed. 100% weighed over the autodrafter, into a 10kg weight spread. Lambs were not fat scored and have all been put down as 2 score, which would be the vast majority, lambs will fall either side of this fat score range. This is the first time these lambs have been offered as feeders/stores, usually kept onto heavy trade or export lambs. From a specialist prime lamb enterprise, these lambs will perform and are well sort after by a major local processor.
