Assessor Comments	An excellent quality line of 1st x ewe lambs, in forward condition, and going ahead on fresh spring pastures since shearing. These ewe lambs were born very late in 2025/early 2026 and endured a pretty tough first four months of life, but have responded accordingly to more favourable conditions of late and have grown out well. No expense has been spared sourcing the genetics that go into these lambs. They are all out of excellent quality Ballatherie blood ewes purchased annually at the Hillston Breeders Sale by top Border Leicester rams. This lot represents the second draft of the later drop of 2025 ewe lambs, with a tail removed.will not take much topping up to be ready for joining. There are another 145 of the top draft of these ewe lambs also in this sale, an opportunity to put 400 one mark breeders sheep together.
