RWS Accredited.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |            |             |            |
| Assessor Comments                     | 2nd draft of 545 East Loddon Merino Wether Lambs. These lambs were individually weighed 36 - 40kg, averaging 38.0kg. The East Loddon genetics are renowned for their fattening abilities, along with meat yield and carcass traits. RWS Accredited. PLEASE NOTE: 6% found with stain at assessment, however lambs were only weaned a few days prior to assessment. Light barley grass seed found at assessment, but due to changing seasonal conditions, this may increase by delivery. East Loddon Merinos have 3 drafts of 1,800 Merino Wether Lambs within this sale - All individually weighed. |            |             |            |
