Assessor Comments	Molka pastoral, offering a neat line of Southdown suckers that are charging ahead. They are out of SA bred Merino ewes Ex Chapman. The lead of these lambs are already killable. As a whole they are true to type, with a heap of bottom and shape for age. Which will translate into carcass yield given the right opportunity. They are principally clean, however any that present with dag will be market crutched by vendor prior to delivery. Would be no more than 20 percent max. They will remain on their mothers until sold. These lambs have had 2 x 6 in 1 + B12 vaccine.
