Assessor Comments	A fresh four-deck load of first-cross lambs offered for sale. These lambs were weaned over a month ago and are currently grazing on fresh spring feed. They have been very well managed from birth and are a product of the fantastic season we are experiencing. With 100% of the mob weighed and crutched pre-delivery, these lambs are primed to continue to steam forward for their purchaser. They have received all necessary animal health treatments, with their Bark Hut and Wepowie stud genetics evident through the genuine muscle and fat they are carrying at such a young age. These lambs have been on lick feeders in their paddock since weaning and are estimated to be consuming 100–150 g of barley per head per day.
