| Assessor Comments      | 640 being part of a consignment of 1280 Egalabra blood wether lambs. Well grown lambs that have had the benefit of a good late winter / spring . lambs are bright in the skin and lively to handle, crutched and mlsd carrying a healthy nourished pelt. Would be ideal to grow out shear and fatten or have the breeding and wool quality to retain as wool cutters.                          |  |  |
