Assessor Comments	Great run of lambs offered today by the Hutching operation. Top draft of 120 ewe lambs, with only 20% being retained; this line of ewes represents an opportunity to purchase genuine future breeders. With growth for age, these ewes will comfortably join for an autumn lambing in 2027 The majority are showcasing the Eyre White trademark super-clean shed already, with a few ewes being some of the nudie crosses still showing some cape that will shed as both the season and maturity progress. Purchase with confidence that these will be leading future matrons, fertile, robust and efficient, typical of the Eyre white breed. Vendor is also offering another line of future breeder ewe lambs and a line of store wethers today
