Comment on Fat Score 1 Sheep: Approx 80% of lambs were assessed as fat score 1's which presented in forward store and would travel anywhere following the correct travel guidelines. Lambs have plenty of youth on their side as they are only 3.5-4.8 months of age & will keep developing given the correct nutrition. Lambs have been properly weaned since start of August & put on a dry winter oats crop. Lambs assessed fat score 1 would be the genuine younger drop lambs.
