Assessor Comments	A opportunity to purchase a line of 560 un weaned Poll Dorset Merino cross suckers that are being offered for sale in two lots (2 lots of 280hd as they run out the gate), and they would with the right husbandry and nutrition would make trade lambs in no time. These lambs have been previously been grown out to suit trade and export markets. They are out of medium to large framed Meadow View blood ewes. . At assessment there was a small tail taken out of the mob. Also all the lambs were ran through a auto drafter into respective weight categories before being assessed. These lambs show good growth and shape. NB Some lambs have some small dags and will be cleaned up before delivery,. The vendor has another 2 lots in the sale that would suit someone looking to put together a line of 800 one mark lambs to fatten.
