Assessor Comments	A very good line of shorn merino ewe lambs. Good pre-lambing management practices and the benefit of a favourable season have meant these ewe lambs have not taken a backward step since birth, and it shows in their presentation. They are in fresh to forward condition and are well grown with good length and bone. This lot represents the bulk of the 2026 drop ewe lambs, with only the lead 30% retained and a small tail removed. They should grow into stretchy plain bodied future breeders.
