Assessor Comments	This is an excellent line of young Chromedale Blood Jakabul ewe lambs. This is the entire drop of ewe lambs out of the later lambing ewes, with the tail removed. The Jakabul flock is renowned for breeding a very hardy and efficient sheep, that produces a solid and neat trade weight lamb at a young age. The Jakabul flock is very fertile and adult ewes consistently wean 140% lambs. These ewe lambs are Gudair Vac and come highly recommended.
