Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	A standout draft of fresh, sappy store wether sucker lambs, recently weaned off their mothers on the 14/10. These lambs are bred from high-performing Primeline ewes and joined to quality terminal and maternal sires, including Poll Dorset and Tradie/Primeline rams. They present with excellent shape, muscling, and depth - true to type and displaying all the attributes of their breeding. This line offers the successful purchaser the opportunity to take them through to trade or export weights and maximise returns in the current strong lamb market.
