Assessor Comments	An excellent line of crossbred lambs that are weaned drenched and vaccinated, and are ready to go ahead. They are out of Karrawarra bred Highlander ewes by FocusPrime terminal sires selected for carcass and fast growth. These lambs will quickly make domestic weights on the right feed and are regularly sought after by the supermarket processors. All lambs were weighed 40-48kg at assessment and are quite even. There are 1500 lambs in this consignment, to be sold in various lot sizes as a run out the gate. Excellent quality lambs that are bred to perform.
