Assessor Comments	Coolibah presents an excellent run of 770 Composite wether lambs. July 2026 drop. Pure Chrome genetics - Vendor consistently purchases top end rams at Chrome annually. Lambs were grain trained on their mothers. On the 13th October lambs were drenched with a triple combination and received their second 6 in 1 vaccination. Offered solely due to seasonal conditions, these lambs represent an excellent opportunity to secure a well-prepared line with plenty of potential to grow out to trade or export weights.
