Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Notable Traits	Traits 1 Head Ewe lamb long tail 12 Head Larger crutching up back and around side
Assessor Comments	737 2nd x w/suff wooly lambs all individually weighed 38-50kg to ave 47 full weight. These lambs are fresh and still in good condition to push to heavier weights in wool or shear and feed through. Only reason being offered is that not enough came upto a kill weight and too many already shorn for stubbles. Vendor finishes his own bred lambs on stubbles and feedlot and last year 90% killed at 30kg plus. Well presented and crutched with no signs of dags or stain.
