Assessor Comments	Offering 1160 Composite wether lambs as 700 & 460, run out the gate. All lambs were weaned 1 week prior to assessment after being imprint fed on the ewes in the month leading up to weaning. They are now receiving daily feeds of 400g/h of barley & lupins. They present in fresh condition & are ideal lambs for taking out to export weights. Positive feedback is commonly received for their doing ability & performance in a feedlot situation! All lambs will be crutched prior to delivery! They come with my highest recommendation!
