Assessor Comments	Offered is a fantastic line of White Suffolk x Merino store whether lambs. With exceptional breeding, these producers are continuously striving to improve their production, and these lambs are the result of exactly that. We consistently send an estimated 50% of these lambs for slaughter every year which yield strong results in both carcass dressing % and skin value. This fresh run of lambs are primed to be finished in a quick turnaround for their purchaser. They have been very well managed since birth and have had the best start you could ask for but with the season now turning it is time for them to go. With the bulk of these lambs still in fat score 3-4, they will make for a profitable investment in the not-too-distant future.
