Assessor Comments	Lead draft of 520 Egelabra Blood Merino whether lambs, July / August drop 26, Lambs averaged 30.8kg (curfew weight at assessment) after an overnight lockup. Mulsed, weaned and are up to date with all their health treatments. Burragundy Farming has a long standing Egelabra flock with 20 years of breeding and has purchased rams out of the top % of Egelabras production sale over the past few years, to compliment this their flock is classed annually by Egelabra classer Jack Kelly, with focus on breeding a larger carcase, while still maintaining an average micron of 18%. These lambs have been given an outstanding start and shouldn't disappoint given the right opportunities moving forward.
