Assessor Comments	Buyers, on offer is a very good line of W/S X Feeder Lambs. Lambs are sired by The Willows Prime Lamb Genetics and are out of medium to large frame CentrePlus & Bundilla Bld Merino ewes. Lambs are a June drop and were shorn on the 15/11, presenting in fresh, forward-store condition. Lambs have been trained to a Barley/Lupin mix. Lambs represent an annual sale and have all been individually weighed between 37kg+ at assessment. Lambs display good length, depth and bone. These lambs present as a terrific opportunity for the successful purchaser to put together a line of quality lambs that, if given the opportunity can provide a short term turnaround into trade weights or continue to grow out into heavier export specifications. For any further information, please feel free to get in touch.
