Other Joining Details	Ewes were scanned in lamb and have come in dry at lamb marking after a tough lambing with heavy predator pressure.
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	Offering 360 quality Merino ewes. The ewes were 51.3kg live at assessment and are Feb shorn currently carrying 50 to 60mm wool. The ewes are part of the flocks classed in breeders and were scanned in lamb this year but failed to bring in a lamb at marking. These ewes are bred from a well managed Well Gully/Miramar Poll Merino bloodline flock that has been selecting top quality rams for many years. The ewes are a tidy line of young breeders that have a handy jacket and are ready to join to the ram of your choice. Please note there are numerous other lines of sheep nearby in the district on this sale and hopefully will help reduce the freight cost.
