Assessor Comments	Offering 560 good quality Merino ewes. These ewes averaged 52.9kg live at assessment and were scanned empty on the 22/07/26. These ewes are vendor bred from a large flock that is highly measured using indexing for continual flock improvement and sired by auction grade North Ashrose Merino rams. The ewes were shorn in early June and are genuine classed in ewes that have fallen out of the program this scanning but would assume they would rejoin well given the lift in condition from shearing and recent rain. Don't miss this opportunity to purchase a quality line of ewes that are ready to join to the ram of your choice. Please note there are multiple other lines of ewes for sale this week from the same vendor which may help with freight.
