Assessor Comments	Buyers, on offer are 240 NSM Maiden Dorper Ewes. A quality line of pure Burrawang blood maiden ewes, purchased as scanned-empty ewe lambs from 'Terrick Station.' These May/June 2025 drop ewes present as an even, well-bred line with the quality and consistency sought after in replacement females. The ewes display excellent depth of body, good muscling, strong breed character, and the desirable black heads and points with white bodies. They are in ideal condition and are ready to join to the sire of the successful purchaser's choice. This offering represents an excellent opportunity to secure genuine 'One Mark' Dorper maiden ewes with their full productive lives ahead of them. Their breeding, type, and presentation make them equally suited to retaining as a quality self-replacing maternal base or joining to terminal sires to produce highly marketable progeny. Please note that a percentage of the ewes have tails remaining. A genuine, well-bred line that will appeal to commercial producers. For further information, please contact.
