Assessor Comments	This line of quality ewe lambs on offer are showing excellent traits of the Eyre Ultra White breeding programme. They are classed in ewe lambs from a much larger mob and are only being offered as they were too young and lighter in weight for joining. Majority are still holding onto wool on their top line & sides with some starting to show signs of shedding, with clean bellies & breeches throughout with only a few clean skins. PLEASE NOTE **** These ewe lambs are from a mob of 264 - and are being offered as 2 Lines of 132 head as a run out of the gate split. Also in the mob of 264 are 67 October 2025 drop ewe lambs that have NOT being Gudair Vaccinated like their older siblings, these can be identified & marked at the buyer's request. The Vendors also have 2 x Lines of 100 Scanned Empty Ewe Lambs in the same sale.
