Assessor Comments	Offering 229 young surplus Merino ewes. These ewes averaged 34.3kg live at assessment and are all June shorn. These ewes are vendor bred and are currently surplus to the Springleigh flock to make room for SIL ewes. The ewes were scanned empty on the 22/06/26 after an early joining and need more time to mature as some are still showing lambs teeth and need to grow out. Don't miss this opportunity to purchase a 2-deck line of young ewes to put away and grow out for the future. Please note there are multiple other lines of ewes for sale this week from the same vendor which may help with freight.
