Assessor Comments	An outstanding line of July/August 2025-drop Merino ewe lambs, exceptionally well grown and developed for their age. This offering represents the tops of the drop of this age group with a tail removed and is only being offered for sale as the first stage of a dispersal due to a change in the vendors' sheep enterprise. These ewe lambs are bred from large-framed Boonoke and Woodpark blood Merino ewe base and are sired by Willera Merino rams. The breeding program has consistently achieved 110% lambing percentages for a merino/merino joining, reflecting the strong fertility, maternal ability and productivity of the flock. Presented in excellent condition and ready for joining, these ewe lambs offer purchasers the opportunity to secure a quality line of future breeding ewes with proven genetics and longevity. They will be a valuable addition to any Merino or cross breeding operation. Please call for further information.
